EXAMINER'S AMENDMENT AND ALLOWANCE

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of issue fee.

This examiner's amendment is prepared based on the response submitted by Phillip Articola (Reg. No. 38,819) on December 20, 2004.

The application has been amended as follows:

Claim 1, line 6, change lightning to lighting. Line 18, change lam to lamp.

Reasons for Allowance

Claims 1-13 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites an image forming apparatus comprising:

an document setting plate for mounting an document copy;

an exposure lamp which is always lit and stands by at a position where a light of the lighting is not irradiated at said document setting plate, and which is movably provided along said document setting plate from the standby position;

Art Unit: 2622

a reading section which moves said exposure lamp and optically reads an image of the document mounted on said document setting plate via said document setting plate;

a print section which prints an image to be read by said reading section on an image forming medium; and

a control panel to be illuminated at a lower surface side by the light of the exposure lamp when said exposure lamp exists at said standby position.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
